Based on our audited consolidated financial statements for the FYE 31 January 2025, the Proposed Disposal is not expected to result in us becoming a Cash Company or a PN 17 Company.

**3. RATIONALE AND JUSTIFICATIONS OF THE PROPOSED DISPOSAL**

The Subject Property is a piece of vacant industrial land with no planning approval granted and thus not generating any cashflow for our Group. Similar to the series of land sales undertaken by our Group over the past 2 years, the Proposed Disposal will provide our Group with the opportunity to realise a gain on disposal and unlock the value of its investment in the Subject Property at the Disposal Consideration.

As at the LPD, our Group is currently focusing its resources on 3 ongoing development projects and should opportunities arise, take advantage of land banking opportunities and joint ventures in other strategic locations. The details of our 3 ongoing development projects are set out as follows:-

| <b>Project name &amp; location</b>   | <b>Type of development &amp; no. of units</b> | <b>Actual/expected commencement date / Expected completion date</b> | <b>Gross development value / Gross development cost</b> | <b>Percentage of completion as at the LPD (%)</b> |
|--|---|---|---|---|

| Senyum Residences, Bandar and District of Johor Bahru, State of Johor      |   |   |   |   |
| • Tower A & B  | Service apartment / 1,257 units               | April 2025 / First half of 2029                                     | RM1,200 million / RM905 million                         | 10%   |

In addition to the 3 ongoing development projects stated above, we are in the midst of completing the infrastructure works on the MSFusion Land with a total gross development cost of RM111 million (inclusive of land cost and estimated cost of development) in accordance with terms of the Disposal to MSFusion SPA. The infrastructure works had commenced in August 2025 and is expected to be completed in the first half of 2026.

Therefore, our Group will have the flexibility and liquidity to pursue investment opportunities or projects requiring large capital expenditure, whilst strengthening our Group's working capital position as stated in **Section 4** of this Circular.

Additionally, as detailed in **Note (ii) of Section 4** of this Circular, our Group has earmarked RM20.00 million of the proceeds to be received for the partial repayment of our Group's outstanding MTN. This in turn will reduce our Group's gearing ratio as shown in **Section 6.2** of this Circular as well as preserve our Group's cash reserves for alternative uses such as our existing ongoing projects.

#### 4. UTILISATION OF PROCEEDS

The Proposed Disposal is expected to raise gross cash proceeds of RM200.88 million, of which RM47.39 million will be incurred for the estimated cost of development for the post-completion works to be carried out on the Subject Property as stated in **Section 2.8** of this Circular. The net cash proceeds of RM153.49 million is expected to be utilised in the following manner:-

| Details of utilisation                                       | Estimated timeframe for utilisation* | (RM'million)  | (%)          |

**Notes:-**

\* From the date of completion of the Proposed Disposal.

(i) **Funding of infrastructure works of BCIP**

*The proceeds of approximately RM35.72 million expected to be raised from the Proposed Disposal are only intended to be utilised to fund the infrastructure cost of one of our Group's developments, namely BCIP.*

*BCIP is a 526-acre sized land located in Mukim and District of Kota Tinggi, State of Johor, which will be developed into an industrial park comprising 22 commercial units and 129 industrial units. It is approximately a 30-minute drive from Johor Bahru City Centre via Tebrau Highway & Eastern Dispersal Link. As at the LPD, our Group has completed the site clearing and commenced earthworks and infrastructure works on BCIP with plans to launch 24 units of semi-detached factories and 15 units of detached factories with a total gross development value of approximately RM436 million over the next 2 years.*

*The proceeds of approximately RM35.72 million are expected to be channelled towards the building of infrastructure such as roads, drainage, sewerage treatment plant, sewerage, piping, reservoir and other related infrastructure in BCIP. The estimated breakdown of the components of such infrastructure cost are as follows:-*

|  | (RM'million) |
|--|--------------|
| Building of infrastructure such as:-                       |              |
| - Roads and drainage                                       | 9.50         |
| - Sewerage treatment plant, sewerage, piping and reservoir | 26.22        |
| <b>Total</b>   | <b>35.72</b> |

*In the event the funds needed for the abovementioned project are higher than budgeted, any deficit will be funded through our Group's internally generated funds. Conversely, if the amount required is less than estimated, the balance proceeds will be channelled towards general working capital requirements of our Group.*

**(ii) Repayment of loans and bank borrowings**

*As at the LPD, the total borrowings of our Group stood at approximately RM173.23 million, of which RM124.00 million are long-term borrowings and RM49.23 million are short-term borrowings. The borrowings of our Group comprise of, amongst others, bank overdrafts, MTN, revolving credit and terms loans. *Our Group has earmarked up to RM20.00 million of the proceeds for the partial repayment of our Group's MTN, details of which are set out as follows:-*

**Note:-**

\* *The allocation of the amount to be repaid for the MTN may be subject to changes depending on the outstanding balances of the MTN at the time of payment.*

*The repayment of MTN is expected to improve our gearing levels, from 0.14 times as at 31 January 2025 to 0.12 times as set out in **Section 6.2** of this Circular. For information purposes, the abovementioned repayment will not result in any interest savings as we intend to repay the MTN as and when it is due.*

Conversely, if the amount required is less than estimated, the balance proceeds will be channelled towards general working capital requirements of our Group.*

*We intend to utilise up to RM90.95 million of the proceeds to pay the income tax arising from the expected pro forma gain arising from the Proposed Disposal as further detailed in **Section 2.8** of this Circular and support our Group's working capital requirements. The proceeds are expected to be channelled towards general administrative and daily operational expenses such as staff-related costs, utilities, statutory payments and other overhead expenditures. Conversely, if the amount required is less than estimated, the balance proceeds will be channelled towards general working capital requirements of our Group.*

Pending the utilisation of proceeds arising from the Proposed Disposal for the above purposes, the proceeds would be placed in deposits with financial institutions or short-term money market instruments. The interest derived from the deposits with financial institutions or any gains arising from the short-term money market instruments will be used as additional working capital of our Group.

## **5. RISK FACTORS OF THE PROPOSED DISPOSAL**

The risk factors relating to the Proposed Disposal, which may not be exhaustive, are set out below:-

### **5.1 Non-completion risk**

The completion of the Proposed Disposal is conditional upon the fulfilment of the conditions precedent in the SPA as disclosed in **Appendix I** of this Circular. In the event any of the conditions precedent in the SPA are not fulfilled or waived within the stipulated timeframe, the Proposed Disposal may be delayed or terminated, and the potential benefits arising from the proposed utilisation of proceeds as disclosed in **Section 4** of this Circular therefrom may be deferred or may not materialise.

Notwithstanding the above, we will take all reasonable steps to ensure the conditions precedent are satisfied within the stipulated timeframe to ensure the completion of the Proposed Disposal.

### **5.2 Financial risk**

Our Group may be subject to certain financial risks pursuant to the SPA such as development cost to be incurred for the post-completion works on the Subject Property may exceed the budgeted cost if there is a delay in obtaining approvals from the regulators and unexpected circumstances. In this respect, our Group has ensured adequate work force has been allocated to the Proposed Disposal to ensure the agreed timeline is adhered to.

### **5.3 Opportunity cost**

Upon completion of the Proposed Disposal, our Group will be disposing the Subject Property and will not be able to enjoy any future appreciation in the value of the Subject Property.

Nonetheless, the Proposed Disposal is expected to result in a pro forma gain on disposal to our Group as detailed in **Section 2.8** of this Circular. The proceeds from the Proposed Disposal would be utilised for purposes set out in **Section 4** of this Circular, which is expected to strengthen our Group's principal business and be beneficial to our Group.

## 5.4 Contractual risk

Our Group is subject to certain contractual risks including, but not limited to, breach of the representations and warranties which are given or to be given by our Group, and obligations on our Group's part to perform, pursuant to the SPA. We may be subject to contractual risks if its completion obligations under the SPA are not fulfilled and/or in the event of any breach of its representations and warranties and/or the terms and conditions on our part to perform under the SPA.

Notwithstanding the foregoing, our Group shall endeavour to ensure full compliance in relation to the fulfilment of its obligations under the SPA to minimise the risk of any breach of the representations and warranties given and the terms and conditions of the SPA.

The property market outlook in Johor is expected to remain reasonably good, supported by the key infrastructure developments such as the ongoing Johor Bahru-Singapore Rapid Transit System Link and Johor-Singapore Special Economic Zone ("JS-SEZ").

As the JS-JEZ is expected to significantly enhance the movement of people, goods, services, and capital, fostering increased economic activity and creating employment opportunities across the nine flagship zones. This is projected to attract population growth and drive demand across all property segments within the JS-SEZ.

With proactive government initiatives and continued influx of foreign direct investments to Johor, demands for industrial properties remain strong and are expected to grow in the years ahead.

BCIP is expected to be launched for sales in first quarter of 2026 and the estimated timeframe of development is 10 years. The funds to finance the development cost will be from our Group's internally generated funds and/or bank borrowings. We are unable to provide the information on total gross development value and total development cost for BCIP as the building plan for all development has yet to be finalised.

("KTC"), Chong Chai Pin ("CCP") and Allan Gan Chee Haur ("AGCH") (collectively "the Defendants") by way of a Writ of Summons endorsed with a Statement of Claim in the Johor Bahru High Court. The causes of action pleaded by the Plaintiffs were defamation, malicious falsehood and conspiracy to injure by unlawful means, in relation to the publication of the contents of the six letters shared to University of London, United Kingdom ("UOL") on 15 November 2022.

The orders and reliefs sought were, among others, an interim injunction that the Defendants are restrained from repeating The Impugned Words (as defined in the Statement of Claim) until this judgment, and a permanent injunction to that effect from the date of this judgment, an order that the Defendants shall write to UOL to retract the said e-mail dated 15 November 2022 (including its attachments) and apologise to UOL, general damages, and special, aggravated and exemplary damages in the sum of approximately RM51.5 million.

In September 2023, two interlocutory applications were filed by the Defendants, which have been dealt with as follows:-

- (i) on 11 September 2023, AGCH filed an application to cease to be a party to the suit. At the hearing of the application on 11 December 2023, the court dismissed the application with costs of RM3,000.00. AGCH remains as a defendant in this suit.
- (ii) on 21 September 2023, CCP and KTC filed an application to amend their defence. As agreed between the parties and directed by the court, the Defendants filed its amended defence. Accordingly, the Plaintiffs had filed an amended reply to the amended defence.

At the case management on 6 November 2024, the parties updated the court that the pre-trial documents as directed by the court have been duly filed. The court fixed 9 February 2026 for a final case management before the trial and for parties to exchange witness statements.

Trial is re-scheduled to be held on 23 March 2026 to 27 March 2026 at the Johor Bahru High Court.

The Plaintiffs have been advised that they have a reasonable prospect of succeeding in their claim against the Defendants for defamation, among others.

**(ii) JOHOR BAHRU HIGH COURT CIVIL SUIT NO. JA-22NCVC-3-01/2024**

KTC and CCP (collectively “**The Plaintiffs for the 2nd Suit**”) commenced an action against CESB, CICSB and 7 others (collectively “**the Defendants for the 2nd Suit**”) by way of an Originating Summons dated 14 September 2023 in the Johor Bahru High Court pursuant to Section 346 of the Act.

The Originating Summons was filed for, among others, an interim injunction order that the Defendants for the 2nd Suit are restrained from continuing the construction works of the second wing of the college building of Crescendo International College until the disposal of the proceedings of this action, general damages and exemplary and/or compensatory damages as assessed by the court.

On 10 November 2023, an application was filed on behalf of the Defendants for the 2nd Suit for an order that the Originating Summons be continued as if the action had been begun by a Writ of Summons and further directions be given as to the conduct of the action thereto, among others. At the hearing of the application on 20 December 2023, the application was allowed by the court.

Following the court’s order on 20 December 2023, the parties have filed their pleadings under the Writ of Summons action. The Plaintiffs for the 2nd Suit, through a Statement of Claim filed, has sought for, among others, the following orders and reliefs:-

- (i) that CICSB be wound up by the Court under the provisions of the Act;
- (ii) that the Official Receiver of Malaysia can be appointed as the liquidator for CICSB;
- (iii) interim injunction orders to restrain the Defendants for the 2nd Suit from continuing the construction works of the Second Wing which is being carried out on No. 3, Jalan Lebuh Cemerlang, Taman Desa Cemerlang, 81800 Ulu Tiram, Johor, PTD 204100 and from issuing any payment of money from any bank accounts of the Defendants for the 2nd Suit for the said construction works until the disposal of the proceedings of this action;
- (iv) an order for a special audit process held through the appointment of an independent auditor proposed by the Plaintiffs for the 2nd Suit in relation to the issue of building costs, the amount of rent charged by CESB to CICSB and bank loan payment interest for construction works of the Second Wing; and
- (v) all loss of profit and loss of opportunity for CICSB and KTC to generate profits for CICSB and KTC on the dealings of the purchase of land from UEM Land Bhd and the purchase of land from Danga Bay project that has caused CICSB loss of profits to be interpreted and paid to the Plaintiffs for the 2nd Suit.

On 11 December 2024, the Defendants have filed interlocutory applications pursuant to Order 18, Rule 19(1) of the Rules of Court 2012 to strike out this suit. The hearing for these applications is re-scheduled to be held on 10 February 2026.

CESB and CICSB have been advised that they have a reasonable prospect of succeeding to resist the Plaintiffs for the 2nd Suit’s claim pursuant to Section 346 of the Act.

**(iii) JOHOR BAHRU HIGH COURT CIVIL SUIT NO. JA-22NCVC-6-01/2024**

CESB commenced an action against KTC and CICSB by way of Writ of Summons dated 24 January 2024 and Amended Statement of Claim dated 1 February 2024 in the Johor Bahru High Court, claiming for, among others, the following orders and reliefs:-

- (i) a declaration that KTC had breached the Joint Venture Agreement dated 11 December 1998 (“**JVA**”) between CESB and KTC;
- (ii) an order for specific performance that KTC shall sell and transfer their 350,000 shares in CICSB to CESB at the price of RM2,079,000 within 7 days of the judgment;
- (iii) an order for specific performance that KTC shall take all the necessary action to sell and transfer its 350,000 shares in CICSB to CESB; and
- (iv) an order for specific performance as against CICSB to take all the necessary action to recognise the sale and transfer of KTC’s 350,000 shares in CICSB to CESB, and to reflect the same in all of its relevant official records and documents including informing third parties of the same.

CICSB is named as defendant in this suit because its shares form the subject matter of this suit and it is necessary for the orders made by the court to bind it directly.

On 6 February 2024, CESB filed an application for a summary judgment pursuant to Order 81, Rule 1 of the Rules of Court, 2012 (“**Order 81 Application**”).

Subsequently, KTC filed an application supported by an affidavit affirmed by CCP (“**Stay Application**”) to stay the proceedings of the Writ action and the Order 81 Application until the disposal of the Stay Application, on the basis that the disputes between the parties concerning the JVA should be referred to arbitration. Further, on 6 May 2024, KTC through their solicitors wrote to the court proposing that parties resolve the issues through mediation, and asked for a stay of all the proceedings and applications under this suit pending the outcome of the proposed mediation. There has been no directions from the court for parties to undergo such mediation.

The hearing for the Order 81 Application was held on 1 August 2024. On 28 October 2024, the judge directed that the Stay Application be heard and thereafter decision will be given for both the Order 81 Application and the Stay Application.

Following the hearing of the Stay Application on 15 January 2025, the judge dismissed the Stay Application with costs of RM10,000.00 awarded to CESB, and dismissed the Order 81 Application with costs in the cause i.e. to be determined at the end of the trial.

The parties have filed the pre-trial documents for this suit. The next case management is fixed on 2 October 2025.

On 9 December 2025, KTC’s solicitors filed an application to discharge themselves as the solicitors for KTC. The application was heard on 10 December 2025 and the judge dismissed the application with costs of RM15,000.00 awarded to CESB. Subsequently, KTC’s solicitors filed another application to discharge themselves, which was allowed by the judge on 6 January 2026, with costs of RM5,000.00 awarded to CESB.

Trial was held on 9 December 2025, 10 December 2025 and 12 December 2025. The trial has been fixed to continue on 6 March 2026 and 13 March 2026.
